SKILLS

Frontend: Angular, React, HTML5,

CSS3, JavaScript, TypeScript

Backend: .NET, REST APIs

Programming: C, C++, Python

Database: SQL Server, MySQL

Tools: Git, GitHub, Postman, VS Code

EDUCATION

MCA, D.Y. Patil Agriculture &
Technical University (2023–2025)

BCA, D.R. Mane Mahavidyalaya,
Shivaji University (2019–2023)

CAREER OBJECTIVE

Aspiring Full Stack Developer passionate about building scalable, secure web applications using modern tech stacks. Seeking to leverage real-world project and internship experience to drive innovation in a growth-oriented organization.

PROFESSIONAL SUMMARY

Dedicated Full Stack Developer with 1 year of internship experience in full-cycle web development. Proficient in Angular, .NET, SQL, and Python with a focus on performance tuning, responsive design, and API security. Demonstrated ability to build scalable solutions and work effectively within Agile teams.

EXPERIENCE

Full Stack Developer Intern, Biyani Technologies Pvt. Ltd (Aug 2024 – Jul 2025)

- Delivered core LMS features including **Test Creator**, **Assignment Module**, and **Learning Resources Hub**.
- Built modular, scalable UI components with **Angular 14**, integrated with **.NET APIs** using **JWT**.
- Reduced page load time by **30%** by optimizing backend logic and **SQL queries**.
- Participated in **Agile sprints**, **stand-ups**, and collaborated cross-functionally to implement mobile-first design.

KEY PROJECTS

AI-Based Student Performance Monitor (Master Project)

Tech Stack: Angular 16, .NET Core Web API, Python Flask (ML Service)

- Built a predictive analytics dashboard to monitor student progress and flag risk levels.
- Integrated ML models using Flask APIs, with real-time insights for teachers and admins.
- Ensured secure login via **JWT**, and role-based dashboard components.

Learning Management System (Internship Project)

Tech Stack: Angular 14, .NET, SQL Server

- Developed end-to-end LMS with dashboards, quizzes, and resource management.
- Used **reactive forms** and **nested validation** to streamline UI/UX and performance reporting.
